CALL FOR APPLICATIONS No. AC/MINTP/ENSTP/DA/DGC of 10 5 JUL 2023  
for the recruitment of a laboratory technician for the Geotechnical and Structural  
Laboratory at the Ecole Nationale Supérieure des Travaux Publics

In a bid to step up its technical manpower, the Director of the National Advanced School of Public Works is inviting applications for the recruitment of a laboratory technician for its Geotechnical and Structural Laboratory.

### 1. Main activities

Under the responsibility of the Head of the Civil Engineering Department, the laboratory technician shall, inter alia:

- ensure that the samples to be analysed are properly supplied and carry out the tests in accordance with the rules of the trade;
- compile test results;
- alert management to any anomalies concerning products or the operation of equipment;
- maintain and service measuring equipment;
- check calibration and calibrate measuring equipment, if necessary;
- keep an up-to-date list of available equipment and monitor its calibration;
- train production teams in the use of measuring equipment, where necessary;
- analyse and interpret the Laboratory's results and, where appropriate, those from internal or external laboratories, and draw up reports.

### 2. Candidate profile

Candidates for this position must, inter alia:

- hold at least an engineering degree (BACC/GCE AIs+3 or equivalent) in Civil Engineering, Mining Engineering, Earth Sciences, Geology or Geotechnics;
- hold a training certificate issued by an approved laboratory testing organisation with three (03) years' proven experience;
- have proven experience in the field of geotechnical and structural testing;
- have proven knowledge of civil engineering materials;
- have knowledge of MS Office, Internet and Outlook.

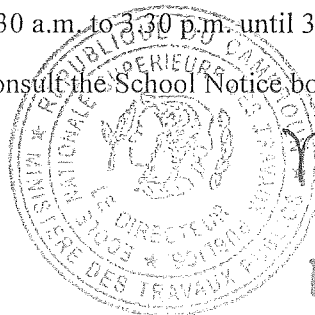

### 3. Composition of the file and deadline for submission of applications

Applications for the position must contain the following documents:

- a stamped application addressed to the Director of the National Advanced School of Public Works;
- a dated and signed Curriculum Vitae ;
- certified photocopies of all diplomas and certificates submitted;
- a certified photocopy of the birth certificate;
- a certified photocopy of a valid national identity card;
- a certificate of non-conviction less than three (03) months old;
- a sworn undertaking that the candidate will be available.

Complete applications shall be received, with effect from the publication of this Call for applications, at the Mail Service of the Management of the National Advanced School of Public Works located at Elig Effa, Yaounde, every working day from 7.30 a.m. to 3.30 p.m. until 31 August 2023, strict deadline.

**NB** : For any further information, please consult the School Notice board or its website: [www.enstp.cm](http://www.enstp.cm).
