Deputy Director of NASPW in Charge of Studies
Assistant Rapporteur

A WORD FROM THE DIRECTOR

A Year of Major Achievements

The year 2023 can be considered as a year full of successful achievements at the National Advanced School of Public Works (NASPW) at several levels.

Indeed, the year got off to an auspicious start when the President of the Republic, Head of State, took the laudable decision to instruct the recruitment of sixty (60) permanent teachers at NASPW over three years. Following the President's instructions, the Minister of State, Minister of Higher Education authorised the recruitment, in 2023, of a first group of thirty (30) teachers in our various training courses. Following a lengthy and well-conducted selection process, NASPW recruited 30 young teachers in Civil Engineering, Environmental Engineering, Rural Engineering, Land Surveying, Town Planning, Architecture, as well as in fundamental and cross-disciplinary sciences. The new intake began work on 1 January 2024. This recruitment will enable NASPW to fully play its role in training young Cameroonians in the field of Public Works and position itself as a centre of excellence both at national level and in the Central African sub-region..

As the icing on the cake, the Head of State gave his approval to the Minister of Finance for the payment of arrears due to the University of Padova under the partnership with this internationally renowned thousand-year-old university. After several years of waiting and patience, this payment has once again reassured our partners of government's desire to see this important partnership continue hitch-free and strengthen further.

NASPW had the rare privilege of welcoming the Ambassador of the United States of America, His Excellency Christopher John LAMORA, within the framework of the Fulbright Programme funded by the American Government. This visit, during which he made an important donation of books to NASPW, contributed significantly to raising the School's profile both nationally and internationally.

Within the framework of its cooperation with Golden Gate University in San Francisco, the school recruited the second batch of students for the Master's degree in Engineering Management. This Master's programme enjoys the support of specialists from the American Fulbright programme..

During the year, following a highly selective process, we recruited the second batch of students for the specialised Master's programme in Transport Planning. This programme, which is being implemented by NASPW in partnership with three renowned international universities, notably the University of Padova, the University of Rome Sapienza - Italy and Université Libre de Bruxelles in Belgium, is financed by the World Bank. I would like to take this opportunity to underscore the achievements of this highly beneficial partnership.

Still in the field of Specialised Masters, the second batch of students in the Master's programme in Engineering Management implemented in partnership with San Francisco's

Golden Gate University was recruited by competitive examination.

We should not forget the World Bank's selection, on a highly competitive basis at continental level, of five (5) students, including three in Civil Engineering and two in Environmental Engineering, for a one-year internship in its agencies around the world. Working in a global institution like the World Bank, gives trainees the opportunity to gain experience from the best experts in various specialist fields. These student trainees are considered worthy representatives of NASPW's training excellence.

To further promote its image, the school played a key role in promotional activities such as the Government Action Fair (SAGO), alongside other structures under the supervision of the Ministry of Public Works, the main institutional partner of this event. NASPW took advantage of the opportunity to showcase its many training courses in the various public works trades to visitors.

I would like to take this opportunity to express our gratitude to all those who contributed in one way or another to all these achievements. I wish all our readers a Happy New Year.

PRESENTATION

The National Advanced School of Public Works (NASPW) was founded in 1970 by decree of the President of the Republic and was then known as the National School of Technology (NST). It is a public establishment offering technical vocational training in the building and public works trades. NASPW owes its current name to Decree No. 82/464 of 4 October 1982. It was reorganised by Decree No. 2016/426 of 26 October 2016 and became a public higher education institution with special status. The institution is placed under the technical supervision of the Ministry in charge of Public Works, under the academic supervision of the Ministry in charge of Higher Education and under the financial supervision of the Ministry in charge of Finance. Its head office is located in Yaounde. It also comprises :

- An Annex school in Buea which trains Higher Technicians (BAC/GCE ALs+2 years); Ordinary Technicians (Probatoire/GCE AI + 2 years); and Basic Technicians (BEPC/GCE OLS+2 years).
- Two Public Works Trades Centres (PWTCS) in Akonolinga and Garoua respectively, which train Assistant Technicians (CEP and First School Leaving Certificate + 6 months).

At the institutional level, Decree No. 2019/541 of 14 October 2019 and Decree No. 2019/542 of 14 October 2019 set up two management bodies: a Board of Directors, chaired by Mrs LEKEUFACK née METANGMO Virginie, and the Directorate, which is headed by Professor NKENG George ELAMBO, Director of this benchmark institution in the field of Public Works and Architecture.

• **NASPW Annex Buea**

The 2023 academic year at the National Advanced School of Public Works, Buea Annex got off to a good start with classes for Semesters 2 and 4 for the 2022/2023 academic year, followed by end-of-study projects for second-year students. The first and third Semesters of 3 modules for the 2022/2023 year started in October 2022 for Semester 3 and in December 2022 for Semester 1.

The academic organisation of this institution offers three degree courses sanctioned by the award of Certificates. The first course, which is open to holders of two GCE AL papers or a scientific Baccalauréat, offers a two-year course leading to the Higher Technician Diploma for Higher Technicians in related disciplines in the Public Works sector.

The second course, which also lasts two years, is open to holders of an Advanced Level Certificate and "Probatoire" offers the Technician Certificate in given related scientific disciplines in the Public Works sector after two years' training.

The third course, which also lasts two years, is open to holders of the GCE Ordinary Level in four papers, BEPC and CAP and offers the Basic Technician

Mr KOUONTCHOU Emmanuel

Director of NASPW Annex Buea

Certificate.

ACADEMIC DEPARTMENTS

The School's statutes authorise the operation of four departments in particular:

- Civil Engineering
- Land Surveying
- Rural Engineering
- Town Planning

WORKFORCE

The staff is composed as follows:

- Administrative staff 12
- Permanent lecturers 8
- Parttime lecturers 121

• Garoua Public Works Trades Centre

The Public Works Trades Centre (PWTC) in Garoua, created by Decree No.91/291 of 21 June 1991, is an annex of the National Advanced School of Public Works (NASPW) in Yaounde. It has been strengthened in its role as the secular arm of the State for retraining and building the capacity of the staff of the Ministry of Public Works. The Centre is responsible for :

- Retraining and further training for Ministry of Public Works staff;
 - Receiving (retraining and further training) personnel from public, private and semi-public companies (local authorities, Crédit Foncier du Cameroun, etc.), under the conditions laid down by the aforementioned decree.
 - This type of training is sanctioned by the award of an Assistant Technician Certificate in Public Works.
- A selection test for holders of the CEP/FSLC has been launched by the Minister of Public Works for 200 places in seven (7) fields:
- Maintenance of Sanitation Works (E.O.A): 30 places ;
 - Road maintenance using the HIMO method (ERH): 30 places;
 - Masonry (MAC): 30 places;
 - Plumbing and sanitation (PLS): 30 places;
 - Tiling (CAR): 30 places;
 - Painting (PEINT): 30 places;
 - Electricity (ELEC): 20 places.

Mr NGAÏDI ADAMOU

Director of Garoua Public Works Trades Centre

• **Akonolinga Public Works Trades Centre**

The Government's strategy to meet the objectives of the National Development Strategy by 2030, namely the construction of a critical and visible mass of infrastructure, is to professionalise the sector (PWTC-A).

To implement this commitment, the Minister of Public Works launched a programme to train 1,500 young Cameroonians in the building and public works sector. In line with this programme, Government decided to reorientate and rehabilitate specialised technical and vocational training centres, such as the Public Works Trades Centre in Akonolinga.

Mr ZANGANKODO

Director of Akonolinga Public Works Trades Centre

In the Area of Cooperation

NASPW is an active member of several renowned international university associations, including:

- Agence Universitaire de la Francophonie (AUF);

- The Association of African Universities (AAU);

Pr NKENG George ELAMBO, elected Deputy Member of the Board of Directors of the AAU for the period 2021 - 2025, is now one of the 17 members of the said Board who represent all the universities in Africa. They are elected by 500 members;

- International Association of Universities (IAU).

Since 2010, NASPW established an academic partnership with the University of Padova (Italy). The general objective of the partnership is to train engineers (Civil Engineering, Environmental Engineering, Land Surveying and Town Planning) at Baccalauréat and GCE ALs+ 5 level. A major innovation introduced in 2017 is the effective opening of a complete Architecture Cycle at Baccalaureat and GCE ALs+ 5 level, which has already enrolled four batches.

In 2020, it entered into an academic partnership with Golden Gate University in San Francisco (USA) with the aim of training engineers in Engineering Management at Bachelor + 2 level.

In 2021, it also established an academic partnership with the University of Rome Sapienza, the University of Padova and Université Libre de Bruxelles. The partnership aims to offer a Master's degree in Transport Planning at Bachelor + 2 level. This training is financed by the World Bank (IBRD, Credit N 8650 -CM) within the framework of its Transport Sector Development Project.

In the Area of Training

NASPW Yaounde, in partnership with the universities listed below, has set up the following training courses:

- Master of Engineering, Bac/GCE level ALs+5 years ;

- Architecture degree (Bac/GCE ALs+5 years);

- Specialised Masters (Bachelor's degree/Works Engineer +2 years)

- The course covers a wide range of subjects, including Architecture, Civil Engineering, Water, Waste and Sanitation, and Eco-Construction.

- **University of Rome Sapienza**, University of Padova and Université Libre de Bruxelles: Master's degree in Transport Planning;

- **Golden Gate University:** Masters in Engineering Management

- **NASPW Annex of Buea** offers the following courses:

- **Higher Technicians** (BAC/GCE ALs+2 years) ;

- **Ordinary Technician** (Probatoire/GCE AL+ 2 years) ;

- **Basic Technician**(BEPC/GCE OLs+2 years).

- **PWTC in Akonolinga and Garoua** trained Assistant Technicians (CEP and FSLC + 6 months).

SUPERVISORY MINISTRIES

MINISTRY OF PUBLIC WORKS

As the technical supervisor of NASPW, MINTP participates in the development of teaching programmes, eases professional internship and assists the school at institutional level and in its relations with the government.

THE MINISTRY OF HIGHER EDUCATION

As its academic supervisor, MINESUP offers academic assistance and supports NASPW, particularly in its cooperation with foreign university institutions.

THE MINISTRY OF FINANCE

As NASPW's financial supervisor, MINFI ensures that all decisions with a financial impact, in particular the budget drawn up, comply with the general framework of the State's public finances.

PARTNERS

University of Rome Sapienza

This is Italy's leading university, renowned in particular for its training in architecture, considered to be one of the best in the world. It is within this framework that academic exchanges regularly take place between teachers of NASPW and those of this university, as well as study trips for students from our institution to Italy.

Université Libre de Brussels

Université Libre de Bruxelles, University of Rome Sapienza, University of Padova

These three European universities are offering a Master's degree in Transport Planning at NASPW.

University of Padova (Italy)

This is one of the oldest universities in the world (1222). Its partnership with NASPW since 2010 has enabled to train Master of Engineering (MEng) and Master of Architecture (MArc) students.

International Labour Office

The agreement signed in 2022 between NASPW and the ILO provides for technical cooperation in applied research and the introduction of the HIMO approach in the curricula of training cycles for the building and public works trades in Cameroon.

Agora Consulting

This firm is specialised in engineering, studies and development. A partnership signed in 2021 between NASPW and the consulting firm Agora Consulting sets out the commitments of the parties, as well as the practical terms of the partnership. The said partnership is built around the following axes: Allocating internships in companies; we receiving students as part of the "Jeunes et qualifiantes" programme; identifying and implementing projects of common interest; supporting NASPW activities through sponsorship.

Golden Gate University San Francisco

This 120-year-old private university, the fifth largest in California, has been supporting the NASPW since it established its Masters in Engineering Management (MI). This course could receive support from the famous Silicon Valley in setting up start-ups. It is an inter-university course using the expertise of seasoned professionals and the courses of experienced scholars of different nationalities.

Jiangsu Vocational Institute of Architectural Technology

On 29 December 2022, Pr NKENG George ELAMBO, Director of NASPW, and Pr LIU HAIBO, Vice President of JSVIAT jointly signed an institutional agreement between their two institutions. Among other benefits, the agreement provides for the mapping of study programmes, the award of double degrees for students, training in Cameroon and China, etc.

EVALUATION OF ACTIVITIES

The annual work plan validated for the 2023 financial year included three programmes:

- A- Initial and further training;
- B- Applied research and development support;
- C- Governance and institutional support.

The implementation of each programme has produced satisfactory results.

A - Initial and Further Training

1-NASPW Yaounde

First of all, NASPW Yaoundé has 5 departments whose role is to monitor students, coordinate and organise academic activities such as courses, examinations and defences. The departments are: Civil Engineering, Environmental Engineering, Land Surveying, Town Planning, Architecture and Continuing Education and Management. In detail, these performances are as follows:

Professor MBESSA Michel
Head of Department of Civil Engineering

Professor TALLA André
Head of Environmental Engineering Department

Professor ÉLIME BOUBOAMA Aimé
Head of Department of Land Surveying

Dr ABA NKASSE Alain
Head of the Department of Town Planning and Architecture

Dr NZENDA Silantos
Head of the Department of Further Education and Management Training

a- The Staff

I- Enrolment at NASPW Yaounde

The total number of regularly enrolled students was 1945, distributed as follows:

Cycle	Class	Total enrolment	Number of female students	Percentage of female students	
Architecture (MArc)	MArc I	94	32	34,04%	
	MArc II	85	17	20%	
	MArc III	74	25	33,78%	
	MArc IV	71	27	38,02%	
	MArc V	72	19	26,38%	
IEngineering(MEng)	MEng I	341	102	29,91%	
	MEng 2	372	87	23,38	
	MEng3GC	184	41	22,28%	
	MEng4GC	131	27	20,61 %	
	MEng5GC	116	32	27,58 %	
	MEng3GENV	12	04	33,33 %	
	MEng4GENV	20	07	35 %	
	MEng5GENV	42	08	19,04%	
	MEng3TOPO	63	25	39,68%	
	MEng4TOPO	76	21	27,63 %	
	MEng5TOPO	52	16	30,76 %	
	MEng5URBA	11	02	18,18%	
		Master of Engineering Management	44	01	2,27%
		Master of Transport Planning	85	22	25,88%

b- Running of the Training

•NASPW Yaounde

One hundred and seventy-three (173) lecturers were involved in the course, of which forty-four (44) from the University of Padova, twenty (20) permanent lecturers and one hundred and nine (109) part-time Teachers.

► Program coverage rate

The coverage rate is between 90% and 100% in the following fields and levels:

- MEng 1 and MEng 2: Common Core
- MEng 3: Civil Engineering, Environmental Engineering and Land Surveying
- MEng 4 and MEng 5: Civil Engineering, Environmental Engineering, Land Surveying and Town Planning
- MArc 1, MArc 2, MArc 3 and MArc 4

► Running of Courses and activities

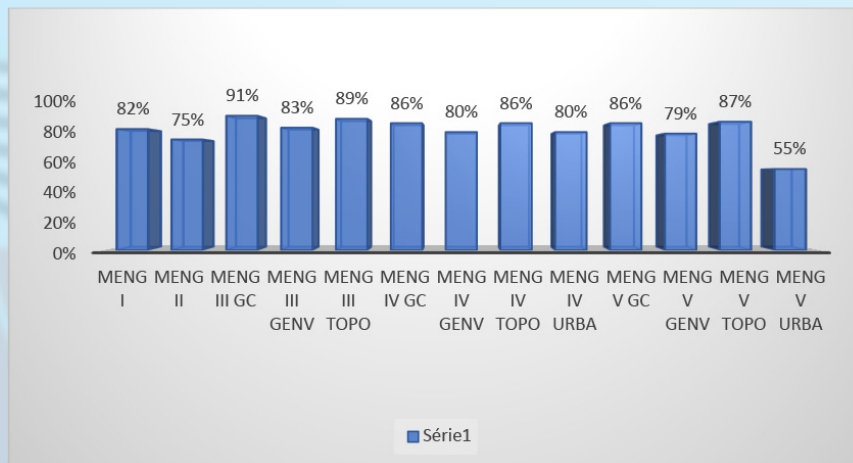

- Most face-to-face courses are taught by local lecturers. Online courses are taught for the most part by lecturers from the University of Padova and Golden Gate.
- Practical work and tutorials are carried out as scheduled. However, they are **experiencing difficulties due to the shortage of laboratory technicians.**

In view of the following statistics, the academic performance recorded during the 2020- 2021 academic year is satisfactory, with an overall pass rate of around 86%.

In detail, these performances are as follows:

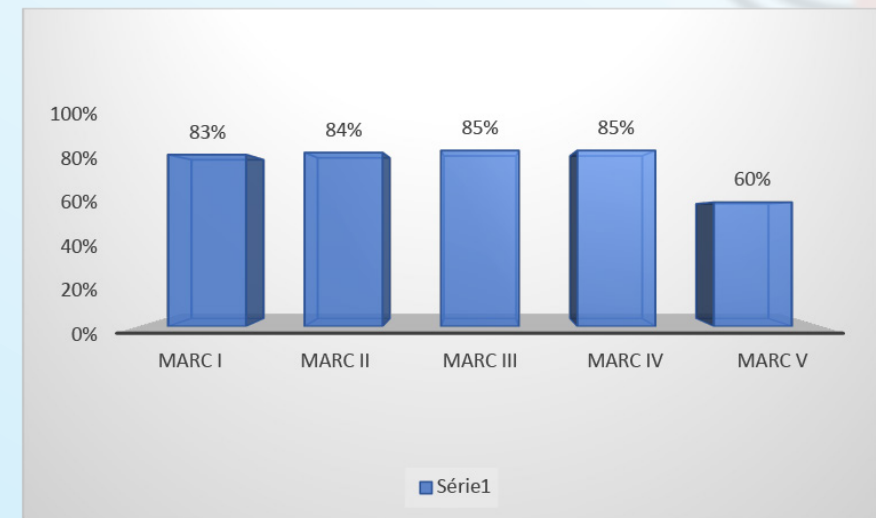

MEng Engineering Cycle

Class	Enrolment	Passed	Success rate	Remarks
MEng I	341	280	82%	Evolution
MEng II	372	279	75%	Stable
MEng III GC	184	167	91%	Stable
MEng III GENV	12	10	83%	Evolution
MEng III TOPO	63	56	89%	Stable
MEng III URBA	-	-	-	-
MEng IV GC	116	100	86%	Stable
MEng IV GENV	20	16	80%	Stable
MEng IV TOPO	76	65	86%	Stable
MEng IV URBA	12	10	80%	Stable
MEng V GC	116	100	86%	Stable
MEng V GENV	42	33	79%	Drop
MEng V TOPO	52	45	87%	Stable
MEng V URBA	11	06	55%	Drop

Architecture Cycle

No	Class	Enrolment	Passed	Success rate	Remarks
01	MArc I	94	78	83%	Stable
02	MArc II	85	70	84%	Stable

04	MArc IV	71	60	85%	Stable
05	MArc V	72	43	60%	

Scientific Promotion and Development Support

Activities

NASPW Yaounde Activities

- ▶ Seminar on "Building Information Modelling", also known as BIM, organized on Tuesday 17 January 2023 and lectured by Pr Henry ABANDA of Oxford Brookes University in England.

Pr Henry ABANDA making explanations

Teachers and students

It was attended by:

- 22 / Pr NKENG George ELAMBO (Director of NASPW)
- Dr BWEMBA Charles (Deputy Director of NASPW)
- Lecturers
- Students

- ▶ Students in the 3rd year of the Master of Architecture following a course in Town Planning taught by Pr Sebastiano ROVERONI of the University of Padova in Italy

Students during practicals

A model

- ▶ Minister of Public Works Emmanuel NGANOU DJOUMESSI visited the work of Architecture students at the end of the closing ceremony of the biannual conference of the central and devolved services of his Ministry, held from January 23 to 25, 2023 at NASPW's Amphitheatre 500.

Presentation of the work by a MArc 2 student

Presentation of the work by a MArc 5 student

It was attended by :

- Pr NKENG George ELAMBO (Director of NASPW)
- Dr BWEMBA Charles (Deputy Director of NASPW)
- Dr ABA NKASSE Alain (Head of Architecture and Town Planning Department)
- Pr Dunia MITTNER (University of Padova)
- Pr Sebastiano ROVERONI (University of Padova)

- ▶ The Topography and Cadastre Club, in partnership with NGOMEZ ENGINEERING, MA-GEO and OGEC, organized a GEOWEEK dedicated to the surveying and topography professions, on the theme "Data acquisition and processing using lasergrammetry and photogrammetry" at the NASPW Campus from 6 to 10 February 2023.

The panel

Group photograph

Practical work

Practical work

Programme of activities :

- A conference on Monday 6 February 2023
- Training workshops on: Data acquisition using a static scanner (RTC 360), a dynamic scanner (BLK2 GO) and a drone (DJI Phantom 4 pro V2.0); photogrammetric and lasergrammetric data processing using Argisoft metashape, Leica cyclone register 360 software; 3D modeling (in NASPW Block B).
- A closing ceremony with presentation of training certificates.

► **As a prelude to the 2023 National Youth Day, CRTV recorded a programme featuring the National Advanced School of Public Works on Friday, 10 February in amphi theater 500 of the NASPW. During the broadcast, several interviews were conducted after the speech by the Head of State, His Excellency Paul BIYA.**

Participants :

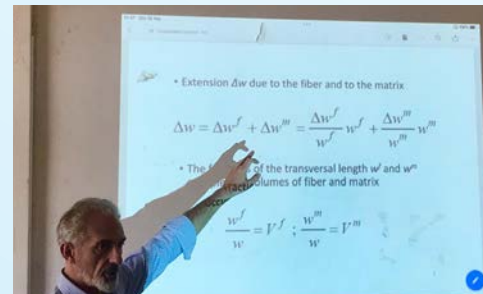

- Pr NKENG George ELAMBO (Director of NASPW)
- Dr BWEMBA Charles (Deputy Director of NASPW)
- Mr POUTOUONCHI ABDOU Karim (Head of Administration and Finance Service, NASPW)
- Pr MBESSA Michel (Head of Civil Engineering Department, NASPW)
- Dr WOUNBA Jean François (Teacher at NASPW and Head of IT Unit)
- Dr LIMALEBA Roger Blaise (Head of the Cooperation and Training Unit)
- Mr NEMBE II Zacharie Pierre (Head of the Sports and Cultural Activities Unit)
- Non-teaching staff
- Students

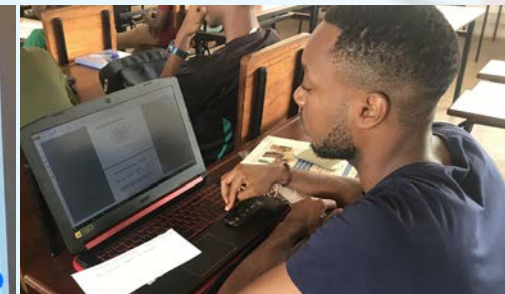

► **Teachers from the University of Padova (Italy) Pr RAGA Roberto, Pr Francesco MAROTTI DE SCIARRA and Pr COLA in class with students in MEng 5 Civil Engineering, MEng 4 Civil Engineering and MEng 3 Environmental Engineering.**

Courses, teachers and classes:

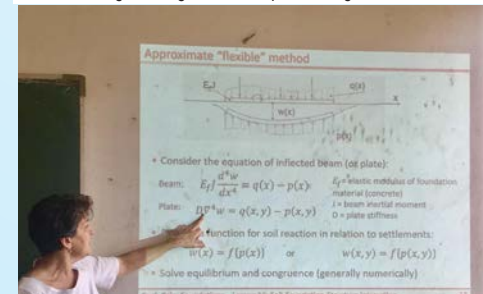

- « Remediation of Contaminated Sites », taught by Pr Roberto RAGA to MEng 4 Environmental Engineering students
- « Mechanics of Materials », taught by Pr Francesco MAROTTI DE SCIARRA to students in MEng 5 Civil Engineering, specialising in Structural Engineering
- « Foundations », taught by Pr Simonetta COLA to MEng 5 Civil Engineering students, specialising in Geotechnics.

Pr Francesco MAROTTI DE SCIARRA in class with MEng 5 Civil Engineering students specialising in Structures

An MEng 5 Civil Engineering student specialising in Structures

Pr COLA in class with MEng 5 Civil Engineering students, specialising in Geotechnics

Pr RAGA Roberto in class with MEng Environmental Engineering students

- ▶ On Wednesday, February 15, 2023, CRTV took pictures of some of the buildings, students' work and conducted an interview with the Director, Pr NKENG George ELAMBO.
- ▶ Commencement of the 2nd batch of Master of Engineering Management students on Wednesday, February 15, 2023.

NASPW Director in an interview

Students from MEng 3 Génie de l'Environnement and Pr RAGA Roberto during a CRTV shooting.

Participants from NASPW

- Pr NKENG George ELAMBO (Director)
- Dr BWEMBA Charles (Deputy Director)
- M POUTOUONCHI ABDOU Karim (Head of Administration and Finance)
- Dr LIMALEBA Roger Blaise (Head of Cooperation and Internship Unit)
- Mr John MEAFO (Translation officer)

Participants from PAK

- Mr MPILA AYISSI (Technical Adviser No. 6)
- Mr MOUZONG BOYOMO Nathan (Monitoring Unit/PAT)
- Ms BEBI Julie Laure (Assistant Research Officer/Legal Affairs Department)
- Ms ENDALE DIPITA Lydie Dana (Cooperation Officer)

- ▶ NASPW hosted and participated in the launching of the project: « Green bricks: installation and layout of a cement-stabilised compressed earth brick production unit to promote e-construction » organized by EDEN AFRICA n at amphitheater 100 on Thursday, 23 March 2023.

Students of the 2nd year of the Engineering Management Master's programme

- ▶ A meeting on the Partnership Agreement between NASPW and the Port Authority of Kribi (PAK) was held on 16 March 2023.

NASPW and PAK in a working session

Group photograph

It was attended by :

- Pr NKENG George ELAMBO (Director - NASPW)
- Dr BWEMBA Charles (Deputy Director - NASPW)
- Mr Joël NGUENKAM (Director of Francophonie - MINREX)
- Mr SAIBOU ADAMA (Director of Sustainable Development Promotion - MINEPDED)
- Mr LIKIBY BOUBAKAR (General Manager MINPROMALO)
- Mrs NYAM Isabelle (Promotion and Career Guidance Department - MINEFOP)
- Mr AWONO Désiré (National Order of Architects of Cameroon)
- Ms MOUCHILI (Architect)
- Ms NDEUNA Diane (Executive President EDEN AFRICA)

- Pr MBESSA Michel (Head of Civil Engineering Department - NASPW)
- Dr ABA NKASSE (Head of Architecture and Town Planning Department)
- Students

► A working session was held on Monday 15 May 2023 between the NASPW and staff from the US Embassy during a working visit by Pr LA TASHA TAYLOR STARR, Fulbright Specialist from Golden Gate University. The meeting focused on the various seminars she will be giving to the 1st and 2nd batches of Master of Engineering Management students.

Working session

Visit to the Further Training building where seminars are held

It was attended by :

Participants from NASPW :

- Pr NKENG George ELAMBO (Director)
- Dr BWEMBA Charles (Deputy Director)
- Mr POUTOUONCHI ABDOU Karim (Head of Administration and Finance)
- Dr NZENDA Célestin Silantos (Head of Continuing Education and Management Training)
- Mr BOMELA Milaire (Infrastructure Service Head)
- Mr John MEAFO (Translation officer)
- Mr AKAMBA Didier

Participants from the USA side :

- Pr LELE Gustave (Golden Gate University)
- Pr LA TASHA TAYLOR STARR (Specialist from Golden Gate University)
- Mr TIENCHEU (US Embassy Attaché)

Seminar topics :

- Digital governance and Start – up modeling ;
- Eco-management ;
- Business and community conflict management;
- General discussion.

► On Tuesday, 16 May 2023, students in the 2nd year of the Engineering Management Master's programme attended a seminar on « Digital governance and Start – up modelling », conducted by Pr LA TASHA TAYLOR STARR (Specialist from Golden Gate University).

First seminar on Digital governance and Start-ups modeling

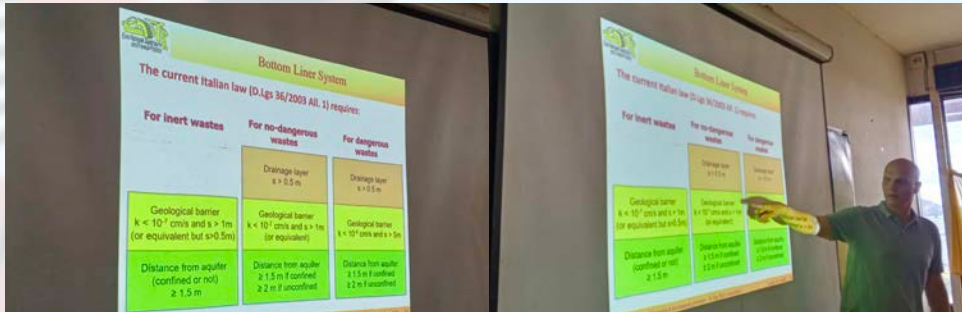

► The first REVIT training session organized by the NASPW Architecture Club's Training Committee took place on 17 May 2023. During the meeting, a number of activities were carried out, including an introduction to the software and a presentation of the training project.

World Bank Internship Programme 2023

The World Bank 2023 African Universities Internship Programme selected four NASPW students:

- Marcelline Audrey BIKELE NGA (Environmental Engineering),intern at the World Bank Office in Ghana.
- DONGMO FEUGAP Ruth Merveille Blanche (Environmental Engineering),intern atthe World Bank Office in Abidjan.
- Josué Godwe GNOWA (Civil Engineering),intern at the World Bank Uganda Office.
- Larissa MANTHO FOBASSO (Civil Engineering),intern at the World Bank Burkina Faso Office.

They were selected following a highly competitive process. The internship aims to train young African professionals in the basic principles of World Bank operations, and to teach them to become active members of project teams, contributing to analytical and operational tasks.

- **The trip took place following the selection of 60 projects out of 200. Among those selected were 10 Cameroonian students, including 4 from NASPW.**

B- Applied research and development support at NASPW Yaounde

▶ **Civil Engineering Department**

Research activities in the Civil Engineering Department during the 2022/2023 academic year focused on three main areas, namely dissertation supervision, publication of articles and development projects.

Supervision activities involved the joint supervision of 104 diploma theses in cooperation with the University of Padova, including 66 in Structures and 38 in Geotechnics. In terms of publications, 6 articles were published in internationally-renowned journals, and a patent was obtained in Structures.

▶ **Environmental Engineering Department**

Out of a total of 42 students, 25 defended their dissertations.

The Environmental Engineering Department published a number of scientific articles in leading scientific journals. These articles were mainly written by Pr NKENG George ELAMBO and Pr TALLA André.

▶ **Land Surveying Department**

Forty-five (45) research dissertations were submitted in the fields of Topography, Geometry, Cadastre and Photogrammetry.

▶ **Town Planning Department**

Twelve (12) students defended their research theses in the following areas:

- Urban Energy;
- Urban Mobility;
- Urban Sanitation

▶ **Architecture Department**

Sixty (60) students defended their research dissertations.

Field trip by Civil Engineering and Town Planning students

C-Governance and Institutional Support

The activities carried out in the governance and institutional support programme enabled us to execute all budgeted activities on time. The activities were grouped under three (3) actions:

- Coordination and monitoring of the activities of various services;
- Improving the working environment;
- Management of human and financial resources.

Training activities proceeded smoothly, thanks to improved administrative and budgetary coordination to ensure teacher mobility and availability, and improved working conditions. In terms of infrastructure, work on the construction of the administrative building was interrupted due to lack of financial resources. Building rehabilitation work is ongoing.

It should be noted that pursued efforts to acquire state-of-the-art teaching equipment in 2023. A number of related projects were initiated and completed on schedule.

NASPW's ongoing infrastructure policy has had a positive impact on the health of its real estate assets. NASPW Yaounde now has 21 classrooms equipped with teaching materials, with capacities ranging from 60 to 100 seats, two (2) amphitheatres with 100 and 500 seats, four (4) laboratories, a library, an infirmary, a sports complex and a restaurant.

An inventory of NASPW Yaounde's movable assets was also made and they were estimated at nearly two (2) billion CFA francs on 31 December 2014. This inventory of assets eases decision-making on the equipment of services.

For example, two (2) classrooms were equipped with furniture and modern projection machines to ease teaching.

All the classrooms are now occupied. There is therefore an enormous need in terms of classrooms and laboratory equipment.

At the budgetary level, the dialogue established between the services of the authorizing officer and those of the Ministry of Finance (Specialized Financial Control and Accounting Officer) enabled better processing of revenue and expenditure files, easy verification of data, and the process of extending the competence of the Specialized Financial Controller and Accounting Officer to all NASPW structures.

Modern equipment

RELEASE No. 23-00478/ MINESUP/SG/DDES/CEPE of 27 OCT 2023 PUBLISHING THE RESULTS OF THE FIRST PHASE OF THE SPECIAL RECRUITMENT OF TEACHERS AT THE NATIONAL ADVANCED SCHOOL OF PUBLIC WORKS

In accordance with the instructions of the President of the Republic, Head of State, the Minister of State, Minister of Higher Education authorized the opening of thirty (30) teaching positions at the National Advanced School of Public Works to holders of a Doctorat/PhD or PhD, aged 45 or over on 1 October 2023.

At the end of the process, candidates were selected from both Cameroonian residents and those living in the Diaspora.

Subject to the presentation of the originals of the required diplomas, their authentication or their equivalence, as the case may be, the following candidates, listed in alphabetical order by department and field of study, were declared recruited as teachers at the National Advanced School of Public Works, for the 2023 - 2024 academic year:

CIVIL ENGINEERING DEPARTMENT

1. ATANGANA NJOCK Pierre Guy
2. NDE NGNIHAMYE Martial
3. NJIKE MANETTE
4. WANDJI ZOUMB Patrick Arnaud
5. YOUSOUFA Seydou

ENVIRONMENTAL ENGINEERING DEPARTMENT

6. KAMENI NGROUNDU Michel Bernard
7. VISIY EDNA BUHNYUY
8. ASI QUIGGLE ATUD
9. TEIKU ASSATSE William
10. OWONO AMOUGOU Olivier Ulrich Igor
11. Jean Paul GRAM SHOU

LAND SURVEYING DEPARTMENT

12. GWETH Marthe MBOND Ariane
13. ZANGUE Eric Magloire
14. KOME Georges Kogge
15. NGOH Jean Daniel
16. NZEBOP NDENOKA Gérard

TOWN PLANNING DEPARTMENT

17. NFORMI Béatrice MALUH
18. EGBENCHONG Ruth ENEKE
19. ETENGENENG Johannes OJONG

DEPARTMENT OF ARCHITECTURE

20. DJOUKWO TSANETSE Majolie Carine

DEPARTMENT OF FUNDAMENTAL AND CROSS-DISCIPLINARY SCIENCES

21. FEUKOUA JONZO Serge Christian
22. KENNE BOGNING Paul Rodrigue
23. ZOUA Vincent De Paul
24. BINE Fritzgerald Kogge
25. ASSEMBE Stéphane Patrick
26. MENANGA TOFOUET Renaud
27. NJOCK Michel Constant
28. AMBASSA OTSOBO Jenny Alban
29. JEUTHO GOUAJIO Marinette
30. AHMADOU KAT Arkala

DIFFICULTIES ENCOUNTERED AND

SUGGESTIONS

A- NASPW YAOUNDE

Despite the tremendous efforts made by the State, notably through the allocation of annual budgetary support for investment and operations, NASPW was faced with a number of challenges which undermined the achievement of its objectives.

These include :

1- Infrastructure

- Insufficient classrooms, especially amphitheatres. The limited number of classrooms undermined the accommodation capacity of the School and its ancillary structures, thereby jeopardizing their prospects for expansion. This has been addressed to the various supervisory bodies, with a view to finding adequate solutions;
- Outdated laboratory equipment prevents practical work from running smoothly.
- The ageing of the NASPW vehicle fleet, eight (8) out of ten (10) of which are over 7 years old;

2- Human Resources

Despite the positive impact of the implementation of the recruitment of 60 permanent teachers spread over 3 years, ordered by the Head of State, and the implementation of the global recruitment plan for non-teaching staff approved by the members of the Board of Directors and gradually implemented by the NASPW Management, there is still a need to absorb the current shortage of teaching and non-teaching staff.

3- Budgetary and Financial Level

- The mismatch between available budgetary resources and expenses makes it difficult to implement the action plan efficiently, particularly in view of the ever-decreasing budgetary support package.
- Difficulties inherent in the procedure for releasing subsidy instalments constitute real stumbling blocks to the effective and efficient implementation of action plans. This is notably due to the mid-year reallocation of appropriations, even when the intended projects have actually been carried out.
- The existence of several circuits for processing budgetary support from the technical supervisory authority continues to reduce the visibility of the effective implementation of NASPW's overall action plan, and the production of exhaustive, reliable and sincere "budgetary and financial reporting" documents

B- NASPW ANNEX BUEA

- **Buildings:** The multimedia center is housed in an old, dilapidated wooden structure. There is an urgent need to build a permanent structure. In addition, it is imperative to build a modern 500-seat amphitheater. There is also an urgent need to build residences for managers and the administrative and finance staff..
- **Personnel:** NASPW Annex Buea operates with 95% of its staff made up of part-time lecturers. There is therefore an urgent need to recruit teachers. The school also needs more support staff. We suggest that the temporary workers who have been assisting the school for many years should be absorbed. The critical case of the drivers who drive the vehicles should be given serious attention. The Land Surveying Department has no permanent teaching staff. We suggest that those who have retired be absorbed under contract to continue.
- **Budget allocation:** student intake has increased considerably, since we have around 1,600 students. This brings with it many challenges. We are calling for a significant adjustment to the operating and investment budget, one (1) service vehicle for the Deputy Director, the Head of Administration and Finance, one (1) liaison pick-up vehicle and three (3) 30-seater buses for student excursions.

C- PWTC GAROUA

While acknowledging the constant support of the Minister of Public Works, service operations and the improvement of the working environment remain a concern. These include

At the financial level :

- The slow execution of the 2022 budget, because management is centralized for both operations and the Public Investment Budget. Decentralization of resources would be ideal, along with a review of the amounts allocated to both operations and investments.
- The PWTC does not have a training budget. It is important to emphasize that the allocation of a training budget will ensure a good level of training, which should improve the performance of MINTP staff in the

field (retraining, upgrading and capacity-building) and the training of Public Works Assistant Technicians.

- The lines concerning mission orders, parttime teaching, bonuses and allowances should be clarified and specifically committed to, as the Garoua Regional Financial Controller poses problems in the management of these lines.

Human resources

- A shortage of support staff due to the recent transfer of some staff from the Garoua PWTC to the Regional Delegation of Public Works for the North in Garoua, the retirement of some staff or staff on probation who have resumed service. No watchmen to ensure the security of the administrative block, reception structures No. 1 and No. 2.
- The residence of the Director of the Garoua PWTC, night and day, and no driver, including the shortage of training staff.
- The recent assignment of three (3) staff members to the PWTC/GRA following their entry into service on 7 June 2021, 3 June 2021 and 5 November 2021 remains insufficient.

Therefore, to manage human resources at the Garoua Public Works Trade Centre, we suggest the recruitment of :

- Three (3) drivers ;
- Four (4) watchmen
- Three (3) cleaners;
- Three (3) Engineers;
- Four (4) Higher Technicians;
- Three (3) Ordinary Technicians.

The year's activities went smoothly at the Garoua PWTC, despite the delay in publishing the results of the training of Public Works Assistant Technicians. In 2022, the Garoua PWTC recorded a major innovation, with the addition of two (2) new courses (Masonry and Plumbing) and a good level of achievement of its objectives.

D- AKONOLINGA PWTC

The main problems encountered in fiscal year 2023 in implementing the Centre's activities relate to:

- insufficient budgetary resources
- growing insecurity at PWTC-A (series of aggravated thefts) ;
- untimely power cuts.

To enable the PWTC-A to improve its performance in carrying out the activities scheduled for the 2023 financial year, it would be advisable to :

- Increase budgetary resources to ensure the continuity of the plan to revive the Trades Centres, in order to ease implementation of the programme to train 1,500 young people in the building and public works trades for an Emerging Cameroon by 2035;
- Reinforce security by installing video surveillance cameras throughout the Centre and recruiting a licensed security company;
- Commit the subsidy resources allocated by MINTP at the start of the financial year;
- Reduce procurement deadlines;
- Increase the installation of solar lighting panels throughout the Centre to avoid untimely load shedding in the town of Akonolinga ;
- We have had discussions with the African Development Bank, which is proposing to support PWTC-A through capacity building; scholarships will be awarded to young Cameroonians, a borehole will be built, certain buildings will be rehabilitated, the computer room will be equipped, training curricula will be updated and support will be provided in terms of marketing communications for PWTC-A, to the tune of 100,000,000 (one hundred million) CFA francs. The project is awaiting signature at MINEPAT after approval by the Head of State.

CONCLUSION

The quest for managerial excellence, observable not only in the quality of the training offered to students, but also in the adoption and implementation of best practices in administrative and financial management, will remain the credo of the management team of the National Advanced School of Public Works in 2023. All the more so as this ambition has been endorsed by the highest State authority and the Government through the various supervisory bodies. This is undoubtedly the legitimate interpretation that one could make with respect to the two major decisions that were taken during the year. These concern the approval for the special recruitment of 60 permanent teachers at the NASPW and the authorisation of a special budgetary allocation to clear certain arrears related to the implementation of the academic, technical and didactic cooperation agreement concluded between the NASPW and the University of Padova.

APPENDICES

Board of Directors

▶ RESOLUTIONS OF THE 27th ORDINARY SESSION OF THE BOARD OF DIRECTORS

The 27th ordinary session of the Board of Directors of the National Advanced School Public Works, intended to scrutinize and adopt the budget for 2023 fiscal year, was held on 31 January 2023 under the chairmanship of Mrs LEKEUFACK née METANGMO Virginie.

- ▶ Resolution No. 01/CD/27SO/2023 of 31 January 2023 adopting the agenda of the 27th ordinary session of the NASPW Board of Directors
- ▶ Resolution No. 02/CD/27SO/2023 of 31 January 2023 adopting the session minutes of the 26th ordinary session of the NASPW Board of Directors
- ▶ Resolution No. 03/CD/27SO/2023 of 31 January 2023 on monitoring the implementation of agreements and partnerships signed by NASPW
- ▶ Resolution No. 04/CD/27SO/2023 of 31 January 2023 instructing the Management of NASPW to request a special subsidy from the highest State authority
- ▶ Resolution No. 05/CD/27SO/2023 of 31 January 2023 instructing the NASPW Management to establish partnerships with MINMAP and the Regions
- ▶ Resolution No. 06/CD/27SO/2023 of 31 January 2023 adopting

the NASPW annual activity report for the 2022 financial year

- ▶ Resolution No. 07/CD/27SO/2023 of 31 January 2023 adopting the NASPW budget for 2023 fiscal year
- ▶ Resolution No. 08/CD/27SO/2023 of 31 January 2023 authorising the acquisition of a pick-up service vehicle for NASPW
- ▶ Resolution No. 09/CD/27SO/2023 of 31 January 2023 validating the change in grade of certain permanent teachers at NASPW
- ▶ Resolution No. 10/CD/27SO/2023 of 31 January 2023 approving the reopening of the NASPW imprest account for the 2023 financial year
- ▶ Resolution No. 01/CD/27SO/2023 of 31 January 2023 adopting the agenda of the 27th ordinary session of the NASPW Board of Directors
- ▶ RESOLUTIONS OF THE 28th ORDINARY SESSION OF THE BOARD OF DIRECTORS

The 28th ordinary session of the Board of Directors of the National Advanced School of Public Works, intended to scrutinize and adopt the budget for the 2023 fiscal year was held on 27 June 2023 under the chairmanship of Mrs LEKEUFACK née METANGMO Virginie.

Summary of resolutions

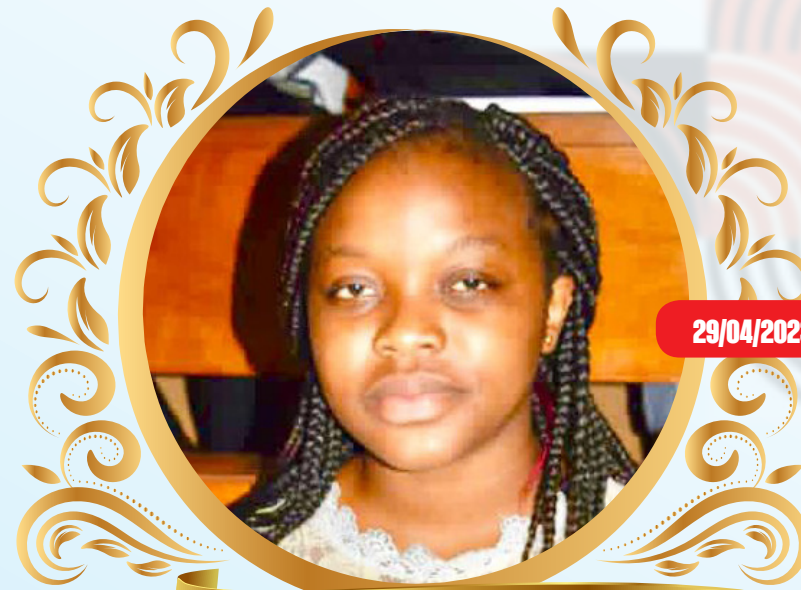

- ▶ Resolution No. 01/CD/28SO/2023 of 27 June 2023 adopting the agenda of the 28th ordinary session of the NASPW Board of Directors.
- ▶ Resolution No. 02/CD/28SO/2023 of 27 June 2023 adopting the session minutes of the 27th ordinary session of the Board of Directors of NASPW
- ▶ Resolution No. 03/CD/28SO/2023 of 27 June 2023 adopting the financial statements of NASPW for the 2022 financial year.
